FOR ACTION: Declare Various Old Technology Equipment as Surplus Property and Authorize Donation and Disposal.

Recommendation

It is recommended that the Board declare old computers that are being replaced this summer as surplus property. It is also recommended that the Board declare other non-functioning technology such as printers and VCR’s as surplus property and authorize the Director of Information Services to dispose of them in the most cost effective manner.

It is further recommended that the Board authorize the donation of twelve (12) of the surplus computers to Options.

Background Data

Each summer, the Information Services Department replaces 20% of MCCSC’s allocated inventory of computers according to the ongoing five year plan. This summer we are replacing computers at Highland Park, Rogers, and Templeton. All of the computers are at least five years old.

Options has requested that MCCSC donate 12 computers for Progress Track, a project to establish better access to customer information for their support staff. This project was awarded a grant from the City of Bloomington.
