FOR INFORMATION: City of Bloomington plans for bus pull-off along Henderson Street

The City of Bloomington has plans and money available for a bus pull-off along Henderson Street. This pull off will allow MCCSC School Buses to load and unload students at Templeton. This will help separate car, bus and pedestrian traffic.

Funding for this portion of the Henderson Street project is from the State of Indiana, Safe Routes to Schools grant. The City and MCCSC worked together to design the project. It is our intent to grant a temporary right-of-way of 6,837 square feet for construction.

When legal documents are complete, we will present an action item on the Board agenda.
