B. ECA Expenditure

James Duvall, Jackson Creek teacher and yearbook advisor, requests permission to purchase a larger-sized monitor for yearbook use. The yearbook design program from Herff Jones (their yearbook publisher) is completely on-line now and it is very difficult to design pages and use pictures when parts of the screen do not appear. A larger monitor will solve these design difficulties. The monitor will be registered with the JCMS library and will be available to whoever is the yearbook advisor each year.
