INTERCONNECTION AGREEMENT
FOR INTERCONNECTION AND PARALLEL OPERATION
OF CERTIFIED INVERTER-BASED EQUIPMENT 10 kW OR SMALLER

THIS INTERCONNECTION AGREEMENT ("Agreement") is made and entered into this ______ day of
_________________, 20__, by and between Duke Energy Indiana, Inc. ("Company"), and Monroe County
Comm School Corp ("Customer").

Customer is installing, or has installed, inverter-based Customer-generator facilities and associated
equipment ("Generation Facilities") to interconnect and operate in parallel with Company's electric
distribution system, which Generation Facilities are more fully described as follows:

Location: 1965 Walnut St S, Bloomington, IN 47401 (Acct. No. 10302673 01)

Type of facility: ☑ Solar ☐ Wind ☐ Other _______________________________

Inverter Power Rating: 2.7 kW fed by (7) Sharp 216 W panels (1.512 kW)

Inverter Manufacturer and Model Number: Fronius IG 3000

Description of electrical installation of the Generation Facilities, including any field adjustable
voltage and frequency settings:

☐ As shown on a single line diagram attached hereto as "Exhibit A" and
incorporated herein by this reference; or

☑ Described as follows: (1) Fronius IG 3000 inverter is connected through AC
disconnect to a 30A 240V breaker in 4th floor distribution panel

Customer represents and agrees that the Generation Facilities are, or will be prior to operation, certified
as complying with:

(i) The requirements of the Institute of Electrical and Electronics Engineers ("IEEE")
Standard 1547-2003, "Standard for Interconnecting Distributed Resources with Electric
Power Systems", as amended and supplemented as of the date of this Agreement, which
standard is incorporated herein by this reference ("IEEE Standard 1547-2003"); or

(ii) The requirements of the Underwriters Laboratories ("UL") Standard 1741 concerning
Inverters, Converters and Controllers for Use in Independent Power Systems, as
amended and supplemented as of the date of this Agreement, which standard is
incorporated herein by this reference.

Customer further represents and agrees that:

(i) The Generation Facilities are, or will be prior to operation, designed and installed to
meet all applicable requirements of IEEE Standard 1547-2003, the National Electrical
Code and local building codes, all as in effect on the date of this Agreement; and

(ii) The voltage and frequency settings for the Generation Facilities are fixed or, if field
adjustable, are as stated above.
Customer agrees to maintain reasonable amounts of insurance coverage against risks related to the Generation Facilities for which there is a reasonable likelihood of occurrence, as required by the provisions of 170 Indiana Administrative Code ("IAC") 4-4.3-10, as the same may be revised from time to time by the Indiana Utility Regulatory Commission ("Commission"). Customer agrees to provide Company from time to time with proof of such insurance upon Company's request.

With respect to the Generation Facilities and their interconnection to Company's electric system, Company and Customer, whichever is applicable, (the 'Indemnifying Party') shall indemnify and hold the other harmless from and against all claims, liability, damages and expenses, including attorney's fees, based on any injury to any person, including the loss of life, or damage to any property, including the loss of use thereof, arising out of, resulting from, or connected with, or that may be alleged to have arisen out of, resulted from, or connected with, an act or omission by the Indemnifying Party, its employees, agents, representatives, successors or assigns in the construction, ownership, operation or maintenance of the Indemnifying Party's facilities, as required by the provisions 170 IAC 4-4.3-10(b)(2), as the same may be revised from time to time by the Commission.

Company agrees to allow Customer to interconnect and operate the Generation Facilities in parallel with Company's electric system in accordance with the provisions of 170 IAC 4-4.3, as the same may be revised from time to time by the Commission, which provisions are incorporated herein by this reference.

In the event that Customer and Company are unable to agree on matters relating to this Agreement, either Customer or Company may submit a complaint to the Commission in accordance with the Commission's applicable rules.

For purposes of this Agreement, the term "certify" (including variations of that term) has the meaning set forth in 170 IAC 4-4.3-5, as the same may be revised from time to time by the Commission, which provision is incorporated herein by this reference.

Customer's use of the Generation Facilities is subject to the rules and regulations of Company, including Company's General Terms and Conditions for Electric Service, as contained in Company's Retail Electric Tariff, as the same may be revised from time to time with the approval of the Commission. Both Company and this Agreement are subject to the jurisdiction of the Commission. To the extent that Commission approval of this Agreement may be required now or in the future, this Agreement and Company's commitments hereunder are subject to such approval.

IN WITNESS WHEREOF, Customer and Company have executed this Agreement, effective as of the date first above written.
